# VALENTINE'S REPORT

TWO YEARS' WORK OF THE COM-MISSIONER OF AGRICULTURE.

The Work Laid Out-Relating to "Abandoned" Farms Beginning of the Exodus Effects of the War-Immigration Considered Lands Visited The Swedes Manufactures-Conclusions.

Commissioner of Immigration A. B. Valentine's biennial report is at hand. The report opens with a review of the methods adopted by other States in this kind of work, and a statement of the fact that as soon as possible, on assuming the duties of office, the commissioner issued blanks calling for information within the scope of the act creating the commission. The information gathered from this blank was of no

value whatever Another blank was issued, which was sent to the listers. This blank was more of a success than the first, yet the informa-tion gathered was very meagre; that pertaining to quarries, mines, manufactories, water-power, etc., being of little value, In the matter of abandoned farms, however, reports were full, interesting and in-This fact determined the line of investigation for the first year of the

commissioner; the expense of which was material including a crack pitcher. taken from the \$2000 apprepriation, and which he considered alegit mate expensiture. From this fund was also paid Mr. Nordgren Eighteen Mea Join the Organizationment sont out by these latter enterprising for four months' time and expenses,

This is a high honor and one that is well deserved. tion, and it is self-evident that but few of ext September, the Groton pastor manufacturers could thrive remote from preach the annual sermon, with Nev. G. I those charged competitors in other sections. To illustrate: The freight rates for textile Barre. fabrics from Bennington to State Line via Bennington and Rutland railway, seven miles, are seven cents per 100 pounds. From State Line to Troy via Fitchburg railroad. 20 miles, are eight cents. From Troy to afternoon were large, the aggregate being New York, 155 miles, they are also seven cents. Whether, under the circumstances, appeared disinclined to do business owing to seven cents per 100 pounds for seven miles the peculiar state of the market and there is too high a rate, or whether seven cents per 100 pounds for 156 miles is too low, the commissioner, who is not an expert in railroad matters, does not presume to say.

# THE EXPENSE.

Regarding the expense of the commission

the report says: The cost to the State has been a trifle compared to the sums expended for like purposes in other States, not Absolutely Pure.

A cream of tactar besting powder. It is for a specified purpose, the amount paid for a specified purpose, the amount paid the commissioner for time spent and expected purpose, the amount paid the commissioner for time spent and expected purpose, the amount paid the commissioner for time spent and expected purpose, the amount paid the commissioner for time spent and expected purpose, the amount paid the commissioner for time spent and expected purpose, the amount paid the commissioner for time spent and expected purpose, the following the first cost is proportion and the proposed in the Burington Free Present Commissioner for time spent and expected purpose, the amount paid the commissioner for time spent and expected purpose, the following the first cost is proportion and the proposed in the Burington Free Present Commissioner for time spent and expected purpose, the amount paid the commissioner for time spent and expected purpose, the following the first cost is proportion and the proposed in the Burington Free Present Commissioner for time spent and expected here attention of the first cost is proportion and the proposed in the Burington Free Present Commissioner for time spent and expected here attention of the medical profession where it is necessary to use whickey in running the first cost is proportion on the proposed in the Burington Free Present Commissioner for time spent and expected here attention of the first cost is proportion on the proposed in the Burington Free Present Commission of the Running of the Stoney Research in the Burington Free Present Commission of the Running Commission of the Runni

ceed \$6000, only about one third of which can properly be charged to the cost of the establishment of the Swedish colonies.

REGARDING FURTHER LEGISLATION. The report says that a natural and business-like method to follow would be the establishment of small colonies, comprising from 6 to 10 families each, in a number of centres. There are many towns presenting as favorable locations as those in which the sweder have already settled, and a broad and comprehensive plan would most quick-ly, effectively and economically accomplish

the end sought. Windbam county can easily accommodate four more colonies; Windsor and Grange counties as many more each; Bennington county at least one; Rutland county, one or more; and Washington, Calestonia, Essex and Orleans countles, one or more each. Indeed, the magnificant farming counties of Frankiin, Lamoille, Chittenden and Addison are not without back farms, which to the Sweds would be a paradise, but are considered of little worth to the prosperous farmers on the rich bottoms. The situation can be summarized as follows:

Who enumber who arrived last April from 

Total arrivals at the date September 15 65

THE UNIVERSITY OF VERMONT. Opening of the Tail Term Next Week-

structive. This fact determined the line of investigation for the first year of the commissioner's service.

The result of inquiries regarding so-called abandonet farms is too well known to need repeating. It is affectos y that of these lands there are 500,000 acres, or about 10 por cent of the arable acreage of the State, that are either act cultivated at all or only partially cultivated and that could be longer to the consistence of the abandoned farms that portions of the abandoned farms that portions of the abandoned farms that portions of the abandoned farms are recky, bedly located, and in some instances work out. Such may well be left to grow up to timber. But the greater amount is not worn out, and can be made as fruitful as lands near by, which are successfully cultivated.

SWEDISH PAMIGRATION.

The steps leading up to the consideration of the Swedish immigration matter have a free the best intranced of the Swedish immigrants as a fine, strong beauty body of mea and vomen. They paid their own passage and railroad fares. The trapportation from railroad stations and temporary entertainment were supplied by the State and temporary entertainment were supplied by the people of the towns where they are not contained that a could be caused by the State and temporary entertainment were supplied by the people of the towns where they are all the proper temporary and the received and the combined that the condition of the second temporary entertainment were supplied by the State and temporary entertainment were supplied by the

tive features which induced from forcome fers and the induced form forcome fers and the inducedons are that the new class will contain some strong base ball material including a rack pitcher.

SUDDEN DEATH OF P. F. DOLAN.

He Drops Dead in the Store of Dolars Brothers Almost Without Warning,

Mr. P. F. Dolan of the firm of Dolan Broat, died very auddenly of heart falture at their store on College street Friday afternoon at 1:19 o'clock. He had been troubled with sick beginebes and pain in the bowels for over two years past, and on Thursday he suffered an unusually severe attack and remained at home. Yesterday morning he felt better, and about noon went to the store to stay while his brother went to dinner. Gay Tobey who was in the store asked directions of Mr. Dolan about some work he was doing, and receiving no reply, stepped to where he was sitting, and saw at once that he was unconscious, Mr. H. J. Shanley was just then passing and Guy called him in. Mr. Shanley started for a physician and meeting Dr. Miller on the way sent bim to the store. Several neighbors entered the store almost immediately and everything possible was done to restore consciousness, but to no uvail. He was unconscious from the first, and showed no signs of rallying except three or four long breaths drawn water those first called in were working over him. Drs. Wheeler and fringhen came at once, but Mr. Dolan was already doubt. When they arrived Health Officer Rutherford was summoned and Undertaker Rand took the remains to the young man's home on South
